

# Missionary Care

Director of Missionary Care: Dr. Jonathan Montgomery  
[jonathan@bmaglobal.org](mailto:jonathan@bmaglobal.org)

Missionary Care looks after the spiritual, mental, emotional, and physical health of every missionary, which includes our men, women, and—most importantly—missionary kids. This ministry offers counseling, coaching, and conferences to missionary families so they can be fruitful in life and ministry. The goal of Missionary Care is to provide encouragement and support so each missionary can continue to grow and develop as mature leaders who serve longer and more effectively.

## Prayer Requests:

- Pray for divine protection for our missionaries who are under constant spiritual attack.
- Pray for our missionary kids to build strong friendships as they navigate the cultural changes they experience on the field and in their home country, and pray especially for those who graduate and return stateside for college.
- Pray for our sending churches, counselors, coaches, and the missionary care team as they support and encourage our missionary families.

## Praises:

- Our missionaries are more readily utilizing our care team's help and services regularly, which allows this ministry to continue blessing our missionary families.
- Last year's Global Care Conference was a great blessing to our missionary families and allowed them an opportunity to worship together and experience mutual encouragement as they met and fellowshiped.
- We are grateful for new financial supporters, which allow the Missionary Care team to develop new ways to minister to our missionaries.
